Your cover on the Advanced Illness Benefit

The Advanced Illness Benefit pays for services provided by a multidisciplinary team

The Scheme will pay for healthcare services provided by any of the healthcare professionals represented in the palliative multidisciplinary team, according to a specific basket of care and the agreed individual member care plan.

These costs will not affect your day-to-day benefits and will be paid at the Scheme Rate from the Hospital Benefit.

Palliative care must be accessed from providers who are registered with the Board of Healthcare Funders

The Scheme will pay for these healthcare services or treatments as long as the application is approved and you use appropriately registered providers (with a valid Board of Healthcare Funders (BHF) registration number) who use valid tariff codes for the healthcare service or treatment.

We need the appropriate ICD-10 codes on accounts

All accounts for palliative care must have a relevant and correct ICD-10 code for us to pay it from the correct benefit. To ensure there isn't a delay in paying your healthcare providers' accounts, please notify the team managing your treatment (or your loved one's treatment) about this requirement.

Nominating a person to assist you

Where you, as the patient, choose to nominate someone to assist you with managing your medical aid, you can complete a third-party consent form. This form is available at www.tfgmedicalaidscheme.co.za. If at any stage, you want to revoke consent for sharing information, you must notify us accordingly.
