Oncology Programme

Disclaimer:

The information contained in this document may be subject to change.

The Oncology programme and the utilisation of the benefits on the programme is subject to specific conditions and rules. Members must ensure that they are familiar with these rules and conditions. The scheme rules are available on www.tfgmedicalaidscheme.co.za

Any instruction or advice we give about medicines and the management of the member's condition is intended as a supplement to, and not a substitute for, the knowledge, expertise, skill and judgement of the member's doctor, pharmacist or other healthcare professional.

The medicines listed in the oncology supportive medicine list (formulary) apply across all health plans unless otherwise stated. You may need to get your medicine from a designated service provider (DSP) to avoid a 20% deductible. The DSPs can be found on www.tfgmedicalaidscheme.co.za.

TFG Medical Scheme reserves the right to change the benefit at any time. We will communicate any changes to the way we pay medicines when we make these. The updated version of this document is available on our website at all times.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

Terminology	Description
Active ingredient	This is the main substance in a medicine that is responsible for the clinical action on a human body.
