## Important information you need to know

We may change the information contained in this document from time to time. We will communicate any changes to the way we pay for medicines when we make these changes.

The Out-of-hospital Prescribed Minimum Benefit (OHPMB) and the utilisation of the benefits and programmes associated with this benefit is subject to specific conditions and rules. Members must make sure that they know these rules and conditions.

Any instructions or advice on medicines and the management of the member's condition are intended to add to, and not replace, the knowledge, expertise, skill and judgment of the member's doctor, pharmacist, or other healthcare professionals.

You receive full cover for approved medication on our medicine list (formulary). Medication not on our medicine list will be funded up to the Reference Price for that medication category. You might have a co-payment for medication not on our medicine list.

TFG Medical Aid Scheme and Discovery Health (Pty) Ltd reserve the right to change the Benefit at any time.

## Explanation of terms

### Active ingredient

This is the main substance in a medicine that is responsible for the clinical action in the human body.

### Benefit year

A benefit year refers to the benefits a member is entitled to during a calendar year – that is, 01 January to 31 December. This medicine list (formulary) is applicable for 2026 only.

### Medicine class

This describes medicines that have similar chemical structures or similar therapeutic effects.

### Prescribed Minimum Benefit conditions (PMB conditions)

These are conditions which all medical schemes are required to cover by the Council for Medical Schemes for any setting according to clinical guidelines.

### Reference Price

The Reference Price is a set monthly amount we pay up to for a medicine category. This applies to medicine that is not listed on the medicine list (formulary).
